

Regarding KLove radio station in my area 88.9 FM I believe this radio station greatly positively affects people in my area. The music is uplifting and positive. I want my children to listen to this music vs. secular stations. They do not use foul language you do not have to worry about what children will hear for example the KATT their programming is not for children. If this station were to be replaced I feel that will negatively impact our community. I believe lives are changed for the better as KLove continues to broadcast. I know it has changed mine.
